New Source Review newspaper advertisements for construction permit applications, January 26, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: January 24, January 25, or January 26, 2006. Public notices are generally published every two weeks. The previous publication of public notices was January 10 - 12, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is National Coal Corporation with a mailing address of 8915 George Williams Road, Knoxville, TN 37923. They seek to obtain an air contaminant permit (Division identification number: 01-0188-01/58716) for construction of a Coal Preparation Plant at New River Highway, Devonia, TN 37728. This proposed operation would consist of crushers, screens, conveyors, stockpiles, and washers. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Anderson County "Oak Ridger"--published once on or before Thursday, January 26, 2006.

The applicant is <u>Midway Materials</u> with a mailing address of <u>128 Natchez Trace</u>, <u>Camden</u>, <u>TN 38320</u>. They seek to obtain an air contaminant permit (Division identification number: <u>03-0039-01/58725</u>) for construction of a <u>Concrete Batch Plant Operation</u> at <u>128 Natchez Trace</u>, <u>Camden</u>, <u>TN 38320</u>. This proposed operation would consist of gravel, crushed rock and sand stockpiles, a cement silo, batch mixer, and associated equipment used to produce ready-mix concrete. A gathering hopper, fabric filter, and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Benton County "Camden Chronicle"--published once on or before Thursday, January 26, 2006.

The applicant is <u>Midway Materials</u> with a mailing address of <u>128 Natchez Trace</u>, <u>Camden</u>, <u>TN 38320</u>. They seek to obtain an air contaminant permit (Division identification number: <u>09-0004-01/58724</u>) for construction of a <u>Concrete Batch Plant Operation</u> at <u>Highway 79 South</u>, <u>McKenzie</u>, <u>TN 37201</u>. This proposed operation

Air Pollution Control jan2606-web.doc 1

would consist of gravel, crushed rock and sand stockpiles, a cement silo, batch mixer, and associated equipment used to produce ready-mix concrete. A gathering hopper, fabric filter, and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the "Carroll County News-Leader"--published once on or before Thursday, January 26, 2006.

They seek to obtain an air contaminant permit (Division identification number: 27-0007-01/58744) to modify an Asphalt Plant located at 300 Patton Street, Humboldt, TN 38343. This existing operation consists of a rotary dryer, elevator, hot screens, hot mix bins, asphalt batch mixer, hot mix asphalt storage, truck load-out, aggregate bins, conveyors, aggregate storage piles, and associated equipment used to process and ship asphalt. The requested modification is to apply the State's new standard operating procedure for asphalt plants. This would decrease the total air contaminant emissions, however, carbon monoxide would increase due to application of new emissions factors. A cyclone and baghouse are used for control of particulate emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Gibson County "Milan Mirror-Exchange"--published once on or before Thursday, January 26, 2006.

The applicant is <u>Southern Concrete Products</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 1090</u>, <u>Lexington</u>, <u>TN 38351</u>. They seek to obtain an air contaminant permit (Division identification number: <u>39-0076-01/58782</u>) to construct a <u>Concrete Batch Plant Operation</u> at <u>266 East Church Street</u>, <u>Lexington</u>, <u>TN 38351</u>. This proposed operation would consist of gravel, crushed rock and sand stockpiles, a cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Henderson County "Lexington Progress"--published once on or before Thursday, January 26, 2006.

The applicant is <u>Swisher Mower and Machine Company</u>, <u>Inc.</u> with a mailing address of <u>100 Hannon Drive</u>, <u>Lawrenceburg</u>, <u>TN 38464</u>. They seek to obtain air contaminant permits for air contaminant sources located at <u>the same address</u>, as follows:

- (1) <u>Natural Gas-fired Water Heater</u> (Division identification number: <u>50-0005-74/58785</u>). This existing operation consists of a 10 MMBtu/hr natural gas-fired water heater. This process was previously permitted for Murray, Inc. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Doug Warden is the assigned Division person.
- (2) <u>Burn-off Oven</u> (Division identification number: <u>50-0005-65/58786</u>). This existing operation consists of a 10 MMBtu/hr natural gas-fired oven used to remove accumulated paint from hooks used in painting operations. This process was previously permitted for Murray, Inc. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Doug Warden is the assigned Division person.

For the Lawrence County "Democrat-Union"--published once on or before Thursday, January 26, 2006.

Air Pollution Control jan2606-web.doc 2

The applicant is Monterey Mushrooms, Inc. with a mailing address of 19748 Highway 72 North; Route 4, Loudon, TN 37774. They seek to obtain an air contaminant permit (Division identification number: 53-0072-01/58622) for modification of a Boiler Operation located at the same address. This existing operation consists of a boiler and associated equipment used to produce steam for the process of growing mushrooms. No. 6 fuel oil and Natural gas are used for fuel. The requested modification is to increase the fuel usage. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Loudon County "News-Herald"--published once on or before Thursday, January 26, 2006.

The applicant is Materials and Energy Corporation with a mailing address of 2010 Highway 58, Suite 1020, Oak Ridge, TN 37830. They seek to obtain an air contaminant permit (Division identification number: 73-0163-02/58754) for construction of a Hazardous Waste Treatment Line at the same address. This proposed operation would consist equipment used for preparation and stabilization of hazardous waste. Activated carbon filters and HEPA filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the "Roane County News"--published once on or before Thursday, January 26, 2006.

The applicant is <u>A & W Ready Mix Concrete</u>, <u>LLC</u> with a mailing address of <u>151 Kyker Ferry Road</u>, <u>Kodak</u>, <u>TN 37764</u>. They seek to obtain an air contaminant permit (Division identification number: <u>78-0104-01/58777</u>) for a <u>Concrete Batch Plant</u> located at <u>the same address</u>. This existing operation consists of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse is used for pollution control. The requested modification is to increase annual production. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. D. Martin is the assigned Division person.

For the Sevier County "Mountain Press"--published once on or before Thursday, January 26, 2006.

The applicant is <u>Cleaners Express Dry Cleaners & Coin Laundry</u> with a mailing address of <u>791 N Chancery Street</u>, <u>McMinnville, TN 37110</u>. They seek to obtain an air contaminant permit (Division identification number: <u>89-0106-01/58780</u>) for modification of an existing <u>Dry Cleaning Facility</u> located at <u>the same address</u>. The proposed modification is to replace the existing machine with a new dry-to-dry perchloroethylene machine. A refrigerated condenser and a carbon adsorber would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Nicole King is the assigned Division person.

For the Warren County "Southern Standard"--published once on or before Thursday, January 26, 2006.
